The Free Love Society, which has been a prominent topic of conversation in the city during the past few weeks, was last night broken up and dispersed by the police. In consequence of the great notoriety recently given to the club, and expecting some kind of a demonstration, we dispatched a reporter to the place of meeting last night, who relates the following facts:

I went to the place of meeting, No. 555 Broadway, about 8 o'clock, 'and obtained admission by the magic password of a twenty-five cent piece. On entering the room, which was about 100 feed of men, and upon close scrutiny could discover a sprinkling of rather ancient-looking ladies, amounting, at the highest calculation, to the number of twenty-five. The Cricket.

BY HADASSAH.

All through the leaves of the hollow tree,
The clouds may fly
Through the deep blue sky,
The flowers may droop and the brooklet sigh,
But never a fig eares he.
He whistles a clear and a merry tune
By the sober light of the silver moon,
All through the lengthened autumn night,
And never a fig cares he.

There's a tiny cricket within thy heart,
And a pleasant song sings he;
He sings of the mercies and goodness of God
That hourly falls upon thee.
Let him whistle loud and clear,
Never drown him in a tear;
There's darkness enough on earth I trow,
Without the gloom of a gloomy brow;
Darkness enough in the home of the poor,
That never comes to the lofty door.
Forth with a smile.

Cheer up the soul that is shrouded in night;

Gov. Pease and Gen. Smith were both in San Antonio on the 4th ult., and several petitions were in circulation, asking for a call for Kangers. The Texan has the following assurance of protection: We learn that three companies of mounted riflement are expected in our city every day. These companies will probably be stationed at Bandera Pass and on the Medina. In addition to the above, we are informed that a large number of dragoons, under command of Col. Johnson, are on their way here. We are certainly rejoiced to be able to give the public this assurance for their future security.

They are pouring ingredients into the political cauldron, which they keep well heated, in hope that utter exhaustion will take place, and that one or the other will be called upon, or both, with Castillian association, to give shape and form to a new order of government, and check the further movement of freedom in that direction. time ago had occasion to comment upon the frivo-lous conduct of the New York Evening Post, in parading the name of a boy named Daniel Webster as connected with the "Kinney Expedition." Since that time we have obtained a few facts re-specting the estate of the late Daniel Webster (grandfather of the how just named) which we specting the estate of the late Daniel Webster (grandfather of the boy just named), which we confess have surprised us exceedingly. For publishing them, as we now do, we have two reasons: First, the fame of Daniel Webster is dear to his countrymen, and ought not to be trifled with; and secondly, the citizens of Washington are interested in his estate to the amount of about \$25,000. The facts alluded to are as follows:

Mr. Webster has now been in his grave very near three years, and his executors have not yet thought proper to sottle his estate. More than a year ago, and before they had the power to plead the act of limitation which they now have, they informed those persons who had claims against the estate that the debts of Mr. Webster amounted to

tate that the debts of Mr. Webster amounted \$140,000, but that his property was valued at only \$40,000. More than a year ago, they solomnly promised that in a very few days they would make a dividend of the property in their keeping, which they have not yet dene.

When they proclaimed that they had sold Marshield for the benefit of Mr. Webster's creditors, hey had done no such thing, but had only sold a wariety of lots of land lying on the outskirts of Marshfield, leaving the "homestead" and some three hundred aeres of land entirely untouched, and in the possession of a member of his family.

It is alleged that Marshfield cannot be sold for the benefit of Mr. Webster's creditors, because his widow had a lien upon it for money loaned to her widow had a lien upon it for money loaned to her husband; it is believed, however, that this allega-tion is wholly set aside even by the will of the de-parted stateman. But, allowing this to be true, the debt alluded to never amounted to more than \$25,000, while the unsold property would probably bring \$50,000.

The library at Marshfield contains some six thousand volumes, and Mr. Choate once gave the point that it was worth \$40,000; and yet this property, instead of being applied to the payment of his debts, remains in the possession of his

13 We have frequently heard the celebrated GERMAN BITTERS, sold by Dr. C. M. Why Females Suffer in Health. THE MARRIED WOMAN'S Private Medical Companion,

BY DR. A. M. MAURICEAU, PROFESSOR OF DISEASES OF WOMEN One Hundreth Edition (500,000) 18mo., pp. 250 standard work of established reputation, found class ed in the catalogues of the great Trade Sales of New

York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. Every woman can here discover, by comparing her own symptoms with those described, the nature, character ter, and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless ailments to which she is sub-ect. The wife about becoming a mother has often need of instruction and advice in respect to her situa-tion, which she will here find. This book tells her what

is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand. Those suffering from obstructions or irregularities pe culiar to the female system, or from prolapsus uteri (falling of the womb,) or from fluor albus, will each find in its pages the means of prevention, amelioration, and

arily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better understood. That they are better understood is traceable to that natural and almost commendable sensitiveness even a medical man in respect to complaints peculiar to

Dayton, May 1, 1847.

Be A. M. Mauriceau—My Dear Sir: My wife has been perceptibly sinking for some three years or more, in consequence of great anguish and suffering some members before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal I cannot express to you the relief in afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me winch I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wife would have been in the grave and my children left motherless.

We received the following piece of intelligence from Mr. James Merriman yesterday, in relation to the burning of the steamer Hartford in the Kansas river:
Captain W. W. While lying near a prairie, the grass caught fire, which immediately communicated with the boat, and she became a total loss in a few moments. The captain and his men had barely time to escape with but a part of their baggare, and were obliged to lie upon a sand bar all night, there being no white settlement within less than five miles.

JNO. P. SMITH,

LOUISVILLE, June 16, 1826.

MR. SOLOMONS: Dear Sir: Having been deprived of the pleasure of reading or writing for the last two years, and not having been enabled to procure any spectacles with which I could see any better than without, and which also immediately produced pain and uneasiness, I was induced, by your advertisement, to call at your office and purchased a pair of your improved spectacles, with which I can see to read the finest print with perfect ease and comfort; I can also see with the same ease to go about my regular business. JESSE HOLLIDAY.

MR. SOLOMONS: Having noticed your advertisement in the Louisville and Lexington papers, I called at your office with my wife to purchase for her a pair of your improved spectacles, with which, I am happy to say, she can see to thread the finest needle, (which she has not done before in five years,) or sew and read for any length of time by day or candle-light, as well as she ever could. She has purchased several pairs of spectacles in the last five years, but they invariably caused the eyes to become weak and tired after using for a short time. No amount would induce her to part with those she purchased from you.

Yours, respectfully.

AYER'S PILLS, A NEW AND SINGULARLY SUCcessful remedy for the cure of all Billious diseases Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Indiammations, Headache, Pains in the Breast, Side, Back, and Limbs, Fennie Complaints, &c., &c. Indeed, very low are the diseases in which a purgative medicine is not more or less required, and much eickness and suffering might be prevented if a hammless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and Judicious use of a good purgative. This is alike true of colds, feverish symptoms, and bilious derangements. They all lend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence, a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skilt to meet that demand. An extensive trial of its virtues by physicians, professors, and patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalled position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in lavor of these Pills we may mention:

Dr. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is indoreed by the Hon. EDW ARD EVERBETT, Sena-or of the United NEW AND SINGULARLY SUC-

The present state of medical science can afford. The present state of medical science can afford. The property of the present state of purity and a state of purity, and above the medicinal virtues only of vegetable remedics, exceed by chemical process in a state of purity, and above the produce a more efficient remedy than had hitherto mobtained by any process. The reason is perfectly rious. While by the old mode of composition every dicine is burdened with more or less of acrimonious dinjurious qualities, by this each individual virtue y that is desired for the curative effect is present the inert and obnoxious qualities of each substance ployed are left behind, the curative effect is present the inert and obnoxious qualities of each substance ployed are left behind, the curative virtues only beretained.
